SPECIALIZED CUSTOM SOLUTIONS (PTY) LTD

Aerators

Tel: (+27) 083 414 9871 nicole@infin-8.co.za

- Application dependent, designed and manufactured in Cape Town to custom specifications in order to meet the chemical oxygen demand of any effluent.
- Our aerators are of the low-speed, high-torque variety, providing excellent pumping rates for fine solids suspension.
- Our aerators are designed to offer superior wire to water oxygen transfer rates.
- The high-efficiency aeration equipment can be either pontoon or platform mounted with jacking bolts.
- The aerator featured here is specifically designed in order to aerate the run-off effluent from wine production.
